Education in East Asia Pei-tseng Jenny Hsieh 2013-05-23 Education in East Asia is a comprehensive critical reference guide to education in the region. With chapters written by an international team of leading regional education experts, the book explores the education systems of China, Hong Kong, Japan, Macao, Mongolia, North Korea, South Korea and Taiwan, covering local regional developments in each country as well as recent reforms and global contexts. Including a comparative introduction to the issues facing education in the region as a whole and guides to available online datasets, this handbook will be an essential reference for researchers, scholars, international agencies and policy-makers at all levels.

International Handbook of Universities 2009 Governance Failure and Reform Attempts

After the Global Economic Crisis of 2008/09

Leonid 2014-04-15 The global economic crisis of 2008/2009 has had a broad impact far beyond economic concerns. Most importantly, it has been seen as a crisis of governance and debates have not just questioned specific regulations, e.g. of global financial markets, but have additionally challenged the appropriateness of underlying governance concepts not only in global markets, but also at the national level. For the post-socialist countries, which adopted market-oriented governance mechanisms less than two decades ago, the global crisis was the first stress test after the post-socialist recovery. The contributions in this book focus on the impact of the crisis and related reform attempts in two important areas. The first area is financial and monetary policy, which is at the core of the global crisis of 2008/2009. The second area is relations between business and state actors, where corruption and weak institutional frameworks can both seriously hamper reform attempts. The volume comprises essential contributions on how the post-socialist countries have tried to cope with the first global

economical crisis they saw themselves confronted with.

Digital Review of Asia Pacific 2007/2008

Idrc, 2008-01-07 The Digital Review of Asia Pacific provides an overview of how information and communication technology (ICT) is being diffused throughout the Asia Pacific region to facilitate socio-economic development. This third annual review provides an analytical overview of the state of ICT4D in the Asia Pacific region. It covers 31 countries and economies including - for the first time - North Korea. Each country is dealt within a separate chapter, which attempts to provide comprehensive coverage of the various aspects of ICT4D in the concerned country at the time of writing (in 2006). The chapters have been written by a team of authors representing different sectors, such as government, academia, industry, and civil society.
