The Book of the Ferrari 288 GTO Joe Sackey
2022-02-08 Over three years in the making, this book covers the background, conception, design, production and aftermath of the iconic Ferrari 288 GTO, including the prototypes, the early production cars, the mainstream production cars in their various specification guises, and the Evolution cars planned for the aborted Group B FIA race series. The work features nearly 400 relevant photographs, from original production images to the cars as they are today, including the 1984 Geneva Salon where the car debuted, the first ever GTO Reunion in 1985, current salon and action images, right up to the 25th Anniversary Ferrari 288 GTO Reunion held in America in 2009. Also featured are the actual factory production approval sheets, as filed with

the Italian government, in an illustrated technical drawing form, along with a chassis by chassis register of every 288 GTO built, including destroyed prototypes, production cars, and GTO Evoluzioni - in fact all 284 cars ever built. This book contains essential resources covering all aspects of the car, including archives, maintenance specialists, restoration specialists, worldwide clubs, parts sources, etc. A comprehensive, beautifully illustrated look at a unique sports car, and a must-have for true Ferrari fans.

N.A.R.T. Terry O'Neil 2020-01-31 Most people with an interest in motor sport will be familiar with the acronym N.A.R.T., yet few people profess to know too much about the North American Racing Team. Starting in the the second half of the 1950s, NART existed for three

decades, during which it experienced successes on the tracks of America and Europe. It also suffered financial difficulties, and arguments with track organisers. This book explains what NART was, how it was formed, and what it achieved over three decades of competition. It wasn't just sports cars that were entered into races, NART entered Formula One cars and Formula Junior cars as well. Never as financially stable as his rival team owners, Chinetti did deals with Ferrari to purchase the latest specification sports cars at the end of a season, in order to attract the best drivers to drive for NART. It was also an opportunity to lease the cars on a race-by-race basis, an arrangement that appealed to some of Chinetti's clientele. Whilst success on the track was significant, problems were never far away. Working on the cars with a limited number of staff, and not receiving spares from Ferrari on time, NART always appeared to be in a state of crisis. No matter ... despite the difficulties, the formula

worked well for Luigi Chinetti, and the acronym N.A.R.T. has rightly become legendary. The Manufacturers Manual and Buyers Guide 1966

vehicle not only eliminates the risk to the life of the driver but also eliminates the labor expense of a driver. Safety to work crews and motorists is enhanced as well. The report states that intelligent vehicle highway systems (IVHS) also offer benefits such as automated collision-prevention and completely autonomous intelligent vehicle tracking, navigation, and control. In Phase I of this project, investigators demonstrated the automated follow vehicle capability on both reduced-scale and full-scale vehicles. The resulting automated system is easily adaptable to existing highway maintenance vehicles. Phase II will be commercialization of the system.

1952 was one of the most important years in Mercedes-Benz racing history; after a 13-year absence, the marque returned to motor sport competition with an automobile that rewrote the history of modern sports car racing. The 300 SL's debut was the culmination of a long, difficult road back to racing for Mercedes-Benz. This book vividly depicts the 300 SL's performance in the five races in which it competed in 1952, and tells the story of how it became the most successful competition sports car of that year. Through dramatic photographs, and equally stirring text, one of the greatest

years of sports car racing is brought to life, filled with automobiles often finished in national racing colours, prepared by great factory teams, driven by men who were national sporting idols, and raced under gruelling conditions unique to the age. From its Mille Miglia debut, through the Nurburgring, the Le Mans 24 Hours, to its greatest race, the Carrera Panamericana, the 300 SL's career from conception to retirement is presented, culminating with a detailed photographic essay illustrating restoration of the oldest 300 SL in existence.
