Automobile Topics 1906 Programming for Adults

Raymond Ranier 2005 As the mission statements of libraries across the nation change to reflect the realities of post-liberal America and its emphasis on economic values, librarians have had to pick up their long-standing paradigm and move it in an endless shuffle from knowledge stewardship, to information broker, to entertainment director. Many library boards have made it clear that the public library, especially in smaller communities, can earn its keep only by becoming the center of educational, informational, and entertainment possibilities for their taxpayers. This has necessitated a ten-year learning curve unprecedented in professional life. Few librarians, even those being schooled today in our graduate schools, are prepared to shift

into high gear when it comes to conceptualizing, planning, paying for, and evaluating public programs for their patrons. Unlike its predecessors that leave ideas for public programming to the imagination, Programming for Adults lists ideas, names names, and massages the already fertile librarian imagination to the challenge and creativity inherent in adult programming. Legal issues are discussed, possible pitfalls are flagged, and evaluative follow-ups are suggested. The advice put forth in this book can help you put on your show to the satisfaction of your boss and, more importantly, to the accolades of your public.

Unwarranted Barry Friedman 2017-02-21 In June 2013, documents leaked by Edward Snowden sparked widespread debate about secret government surveillance of Americans. Just over a year later, the shooting of Michael

Brown, a black teenager in Ferguson, Missouri, set off protests and triggered concern about militarization and discriminatory policing. In *Unwarranted*, Barry Friedman argues that these two seemingly disparate events are connected-and that the problem is not so much the policing agencies as it is the rest of us. We allow these agencies to operate in secret and to decide how to police us, rather than calling the shots ourselves. The courts have let us down entirely. *Unwarranted* is filled with stories of ordinary people whose lives were sundered by policing gone awry. Driven by technology, policing has changed dramatically from cops seeking out bad guys, to mass surveillance of all of society-backed by an increasingly militarized capability. Friedman captures this new eerie environment in which CCTV, location tracking, and predictive policing has made us all suspects, while proliferating SWAT teams and increased use of force puts everyone at risk.

Police play an indispensable role in our society. But left under-regulated by us and unchecked by the courts, our lives, liberties, and property are at peril. *Unwarranted* is a vital, timely intervention in debates about policing, a call to take responsibility for governing those who govern us.
