Vaccine Education and

Promotion Graça S. Carvalho

2025-05-13 Vaccination plays a
crucial role in controlling and
significantly eradicating many
diseases. It reduces the burden
of illness and saves countless
lives worldwide. Vaccination is
an essential tool in public
health, directly impacting
several Sustainable
Development Goals (SDGs) as
it contributes to better
education (SDG 4), healthier
populations (SDG 3), lower
poverty (SDG 1) and hunger
(SDG 2), and cleaner water and
sanitation (SDG 6).

Misconceptions about vaccines can lead people to distrust vaccination effectiveness or safety. Such misconceptions are often spread through word of mouth, social media, or alternative health communities. Therefore, “vaccine education and promotion” is crucial to inform and encourage people to vaccinate by providing accurate scientific information and implementing vaccination programs, emphasizing their benefits, safety, and importance in preventing infectious diseases. This Research Topic focuses on new developments in “vaccine education and promotion” in several settings, such as schools, workplaces, and communities, as well as through traditional press media and social media. We aim to include studies of public health campaigns, school health activities, production of vaccine educational materials, community outreach, and diverse communication to address concerns or misinformation about vaccines. The goal is to find ways of

increasing vaccine rates and promoting public health by ensuring people make informed decisions about their health and the health of their communities. This Research Topic welcomes the submission of manuscripts focused on “vaccine education and promotion” that, among others, can address the following:

- Diverse strategies for vaccine education and promotion, including but not limited to several settings (schools, workplaces, communities, etc) and traditional press media and social media;
- Gender issues and health inequalities related to vaccination;
- Emphasis on the underlying framework/program theory, the planning, the implementation process, and the evaluation of the vaccination promotion initiative;
- Vaccine education and promotion initiatives' impact and lessons;
- Active ingredients, favorable conditions and specific competencies for successful vaccine-promoting initiatives.

Games Girls Play Carolyn M. Cunningham 2020-07-06

Games Girls Play examines the role that video games play in girls' lives, including how games structure girls' leisure time, how playing video games constitutes different performances of femininity, and what influences girls to play or not play video games. Through interviews, focus groups, and qualitative content analyses, this book analyzes girls' involvement with video games. It also examines different contexts in which discourses of girls and video games occur, including girl-oriented video games, activist efforts to change the video game industry, and informal education programs that teach girls video game design.

Ethics in Social Science

Research Maria K. E. Lahman 2017-11-27 Ethics in Social Science Research: Becoming Culturally Responsive provides a thorough grounding in research ethics, along with examples of real-world ethical dilemmas in working with vulnerable populations. Author Maria K. E. Lahman aims to help qualitative research

students design ethically and culturally responsive research with communities that may be very different from their own. Throughout, compelling first person accounts of ethics in human research—both historical and contemporary—are highlighted and each chapter includes vignettes written by the author and her collaborators about real qualitative research projects.

Navajo Sovereignty Lloyd L.

Lee 2017-04-11 The last few decades have given rise to an electrifying movement of Native American activism, scholarship, and creative work challenging five hundred years of U.S. colonization of Native lands. Indigenous communities are envisioning and building their nations and are making decolonial strides toward regaining power from colonial forces. The Navajo Nation is among the many Native nations in the United States pushing back. In this new book, Diné author Lloyd L. Lee asks fellow

Navajo scholars, writers, and community members to envision sovereignty for the Navajo Nation. He asks, (1) what is Navajo sovereignty, (2) how do various Navajo institutions exercise sovereignty, (3) what challenges does Navajo sovereignty face in the coming generations, and (4) how did individual Diné envision sovereignty? Contributors expand from the questions Lee lays before them to touch on how Navajo sovereignty is understood in Western law, how various institutions of the Navajo Nation exercise sovereignty, what challenges it faces in coming generations, and how individual Diné envision power, authority, and autonomy for the people. A companion to Diné Perspectives: Revitalizing and Reclaiming Navajo Thought, each chapter offers the contributors' individual perspectives. The book, which is organized into four parts, discusses Western law's view of Diné sovereignty, research, activism, creativity, and

community, and Navajo sovereignty in traditional education. Above all, Lee and the contributing scholars and community members call for the rethinking of Navajo sovereignty in a way more rooted in Navajo beliefs, culture, and values.
