Glencoe Mathematics William Collins 1999

Reconceptualizing Mathematics Judith Sowder 2012-12-28 More and more, prospective elementary teachers are being asked to develop what the Conference Board of Mathematical Sciences (CBMS) calls "the habits of a mathematical thinker." This breakthrough text became the new standard for training future elementary math teachers by doing just that, helping them absorb the ideas underlying essential math concepts, rather than just working problems and memorizing facts. Created from extensive math education research and class-testing, the book's innovative pedagogy, convenient format (three-hole punched, perforated pages, wide margins), and supporting technology make it the ideal text for helping today's students become tomorrow's teachers
